出身国や外国で過ごした経験について教えてください：

Papua New Guinea is a very culturally diverse country located in the Pacific Ocean with over 850 languages and cultures with great white sandy beach and rich rainforest ecosystems. Studying abroad here in Hiroshima has been one of the greatest decisions I made given my interests in Japanese history and culture. I am really enjoying my stay here in Japan and looking forward to learning more and giving back to the people of Hiroshima and Japan.

広島の子供・生徒たちにどんなことを学んでほしいですか：

As an instructor, I would like to have more open communication between the students, and I encourage students not to be shy and nervous. Do ask a lot of questions as you can so that we all can have a great time together. I am very much looking forward to working with you all.
