出身国や外国で過ごした経験について教えてください :

I come from Ghana in West Africa. Japan is the 3<sup>rd</sup> Country I have visited and lived in apart from my home country. Japan is a very peaceful and safe country. I love the environment, its so peaceful and clean, the Japanese people are very polite, kind and helpful. I feel safe in Japan, and I am glad I was given the opportunity to study here.

広島の子供・生徒たちにどんなことを学んでほしいですか :

I am glad to be given the opportunity to teach the Japanese children cultures from my home country. This would broaden their knowledge about different cultures around the world and improve their interactions in English. I believe this would help them relate well and build their confidence when they meet people from other countries who speak English.

自己紹介を自由に記載してください (写真などもお使いください) :

My name is Caroline Awuye, but you can call me Carol. I come from Ghana in West Africa and used to work with the city hall in my home country. My job required me to meet and relate with different people and find solutions to basic problems they faced; hence I have very great communication and interpersonal relations skills. I believe every individual is different and therefore has different approaches to learning new things. Learning English is like learning to create a new habit. It takes time, patience, perseverance and consistent practice to be good at it. I understand that learning English can be difficult, so I am willing to come to each individual's level of understanding to help students to be able to understand basic English and Express themselves. I have a bachelor's degree in economics and geography, and currently pursuing a master's in social Innovation Science- with specialization in Urban Environmental Science, and my research interest is the Sustainable Development Goals. I believe that creating a conducive atmosphere where students can have a lot of fun whilst learning to interact in English makes it easier for them to build confidence in themselves.
