I come from Venezuela, this is my first time outside my country. Living in Japan has been the best experience of my life. Knowing about Japanese culture has been really interesting to me. Also, I've been participating in many culture exchange events so I can let people know about my country and to know other cultures different from mine and Japan.

Talk about the music and the national symbols and festivities.

I come from Venezuela, I used to live in the capital of Caracas. I am Master student in the Hiroshima University, my research is about vocational education.

I'm very curious and I like to learn new things. I like universal history, painting and the recent interest I got since I came to Japan is traveling to new places.
